Green's – Gluten-Free Beers

Inspired by strong European beers, these specialty beers are brewed for a strong body, crisp taste and a refreshing flavor. Whereas most conventional brewing methods employ either Isinglass or gelatin-based products in the clearing process, Green's only uses natural tannins which give its beers an attractive hazy body. Green's gluten-free beers are suitable for both vegetarian and vegan diets.

*Green's beers **do not contain gluten** or any of the following allergens or ingredients: crustaceans, eggs, fish, peanuts, soy bean, milk, lactose, nuts, celery, mustard, sesame seeds, sulphur dioxide or sulphites.*
